HEARTHWELL

The quiet geometry of home.

THE COLLECTION / TWELVE PIECES / SIX ROOM STUDIES

Start with the way you live.

A collection built around everyday rituals.

A room starts with a habit: the place where you put down a bag, the chair you choose for a book, the table that makes another place possible. Hearthwell brings these small decisions into a coherent family of timber furniture.

Low profiles, repeated finishes and restrained proportions let the pieces sit together without every object asking for attention.

The six room studies show arrangements rather than fixed interiors. Use their numbered plans to find the relevant piece in the product index. Dimensions and finish codes stay with the product, so it can move between rooms.

Photographs offer atmosphere references. Product identities are carried by original native drawings.

An original portfolio collection. Product specifications are authored design proposals, not manufactured or certified products.

Three quiet notes.

Timber, upholstery and the space between them.

OAK-01

Natural oak tone

LIN-01

Pale upholstery

LIN-02

Sage upholstery

Printed swatches indicate the proposed palette; they are not physical material samples. Dark OAK-02 appears on page 25.

Find your room.

Six ways to assemble the same collection.

01 / Living / 6–9

02 / Dining / 10–13

03 / Bedroom / 14–17

04 / Study / 18–19

05 / Entry / 20–21

06 / Reading / 22–23

24 Materials / 30 Product index / 34 Delivery planning / 35 Where to see the collection

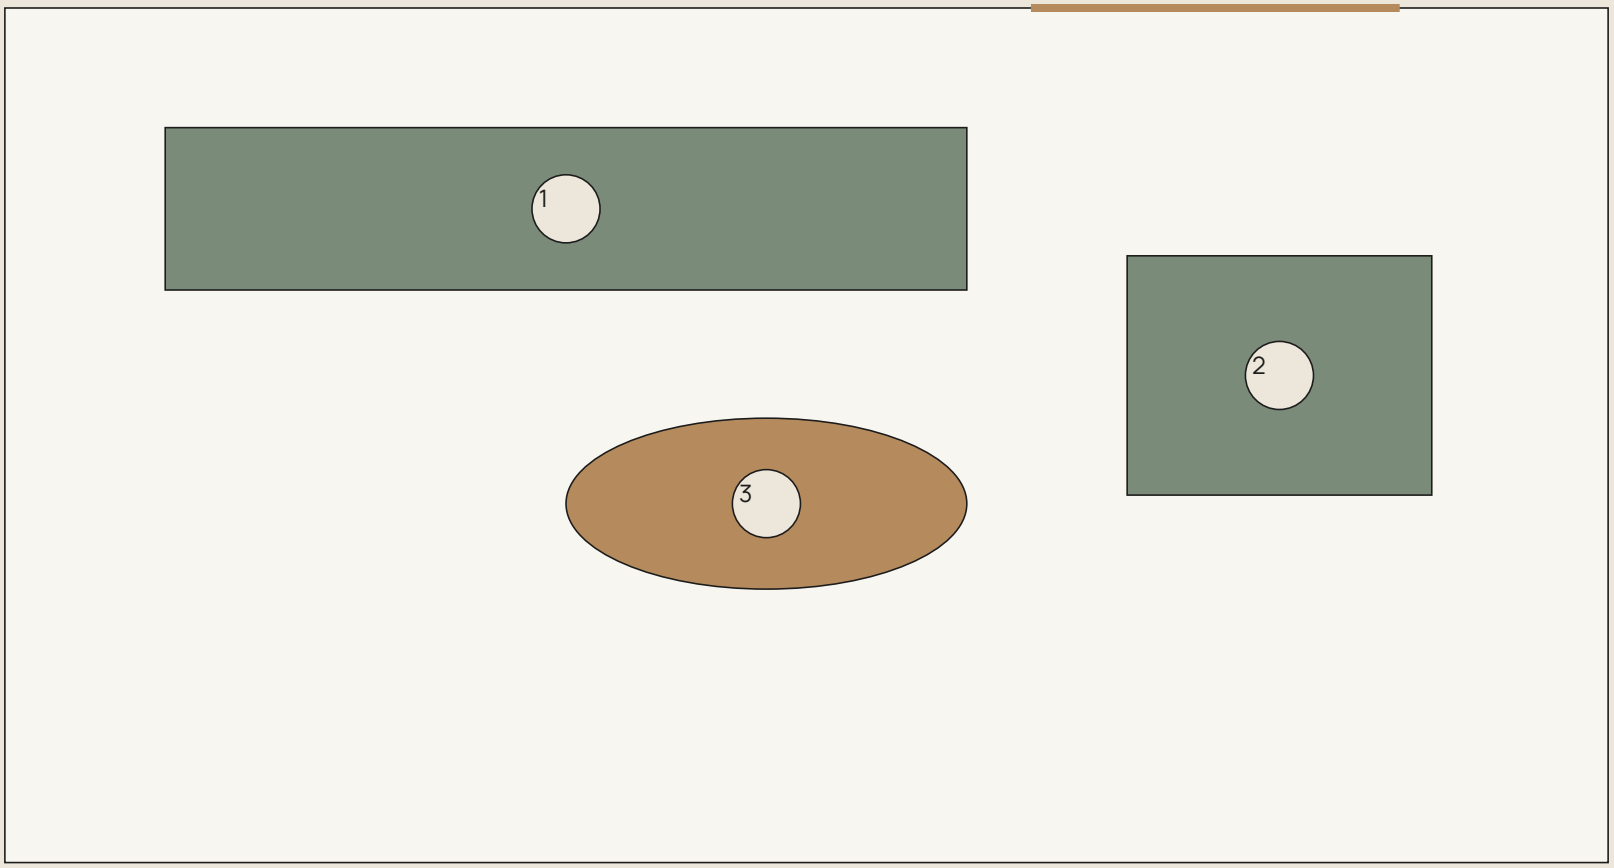

A family, not a fixed set.

Each number in a room plan opens the product index.

Living H01 / H02 / H03	Dining H04 / H05 / H11	Bedroom H08 / H09 / H12
Study H06 / H05 / H07	Entry H11 / H10 / H07	Reading H02 / H12 / H10

All twelve product drawings are original native artwork. Scale, finish and placement should be checked together.

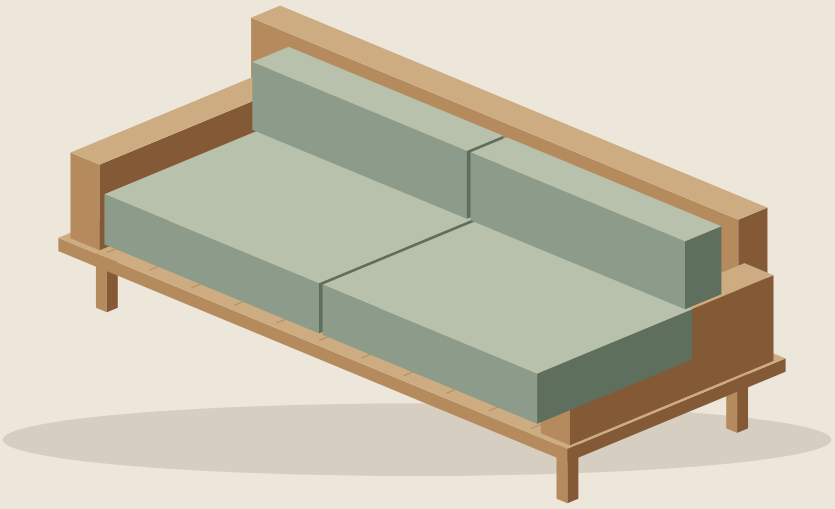

A shared place to settle.

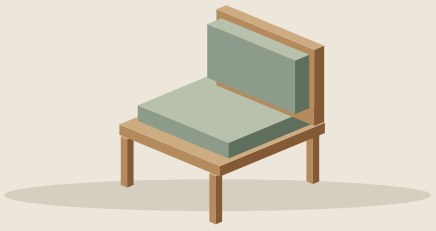

Arrangement study / not to scale. Confirm clearances for your room.

Low profiles. Open space.

One anchor. Two supporting pieces.

1 / H01 / Lowline sofa

2 / H02 / Arc lounge chair

3 / H03 / Round coffee table

Living / atmosphere reference

Stock interior reference only. Photographed furniture is not presented as a Hearthwell SKU.

Room to move.

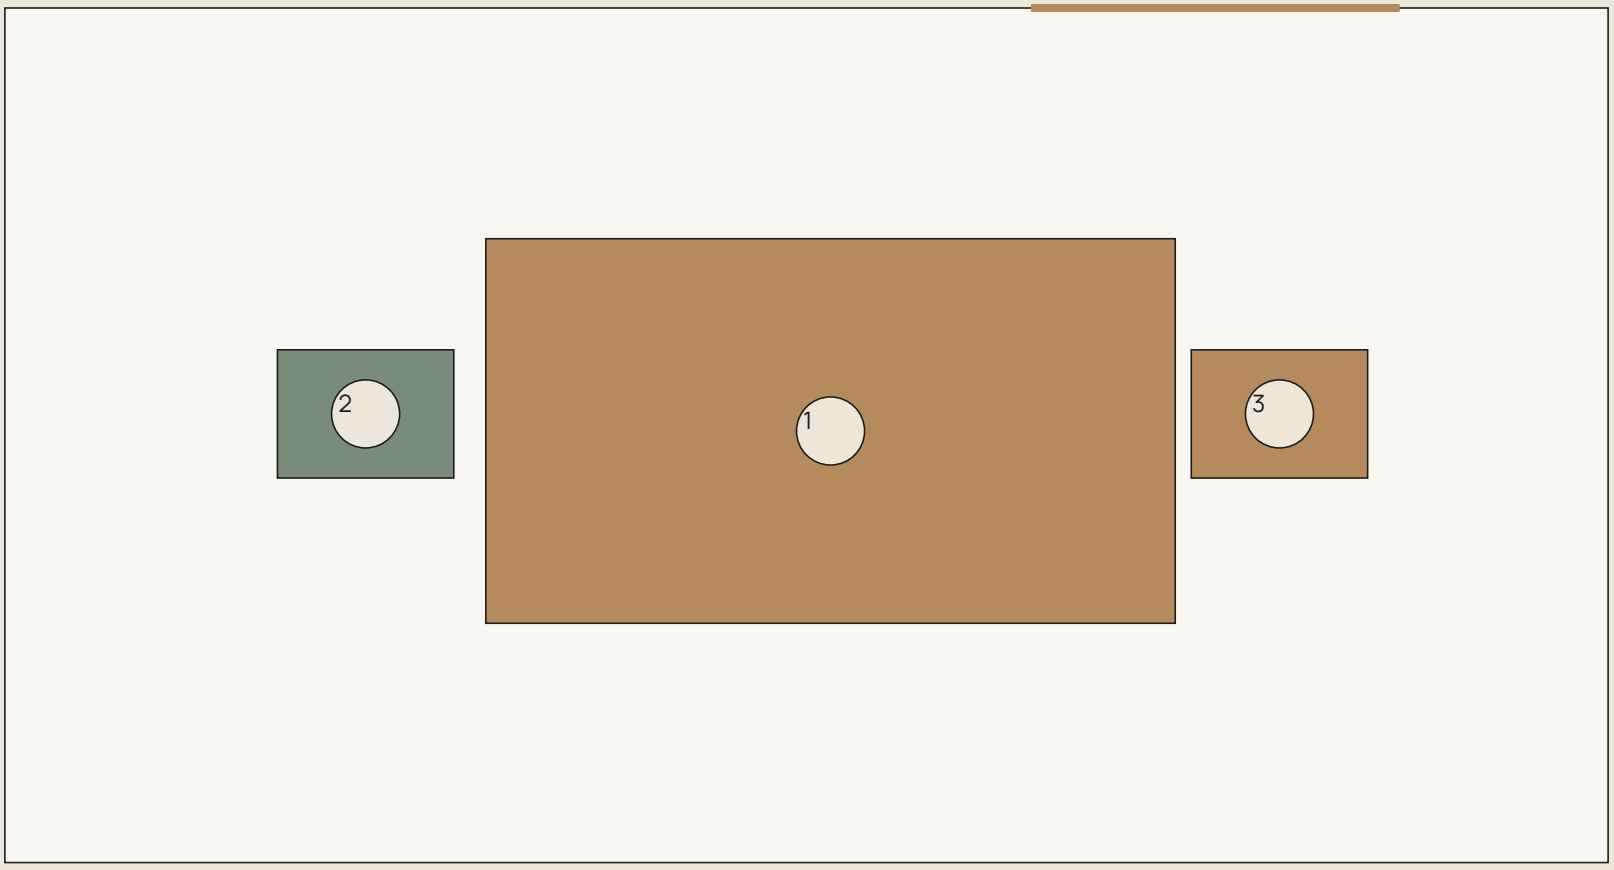

Trace the routes before choosing the arrangement.

Begin with the route through the room. Keep the seating group close enough for conversation, then check how a person passes behind each occupied chair. A furniture footprint alone does not include the space needed to use it.

Move the side pieces before moving the largest one. A table can serve more than one seat; a lamp or basket can shift with the task. Confirm access to doors, sockets and any heating equipment before settling the arrangement.

Planning prompts, not an architectural survey. Verify room dimensions, access and actual furniture before purchasing.

Gather without crowding.

Arrangement study / not to scale. Confirm clearances for your room.

A table that gathers.

One anchor. Two supporting pieces.

1 / H04 / Gather dining table

2 / H05 / Rail dining chair

3 / H11 / Fold console

Dining / atmosphere reference

Stock interior reference only. Photographed furniture is not presented as a Hearthwell SKU.

Pull up a chair.

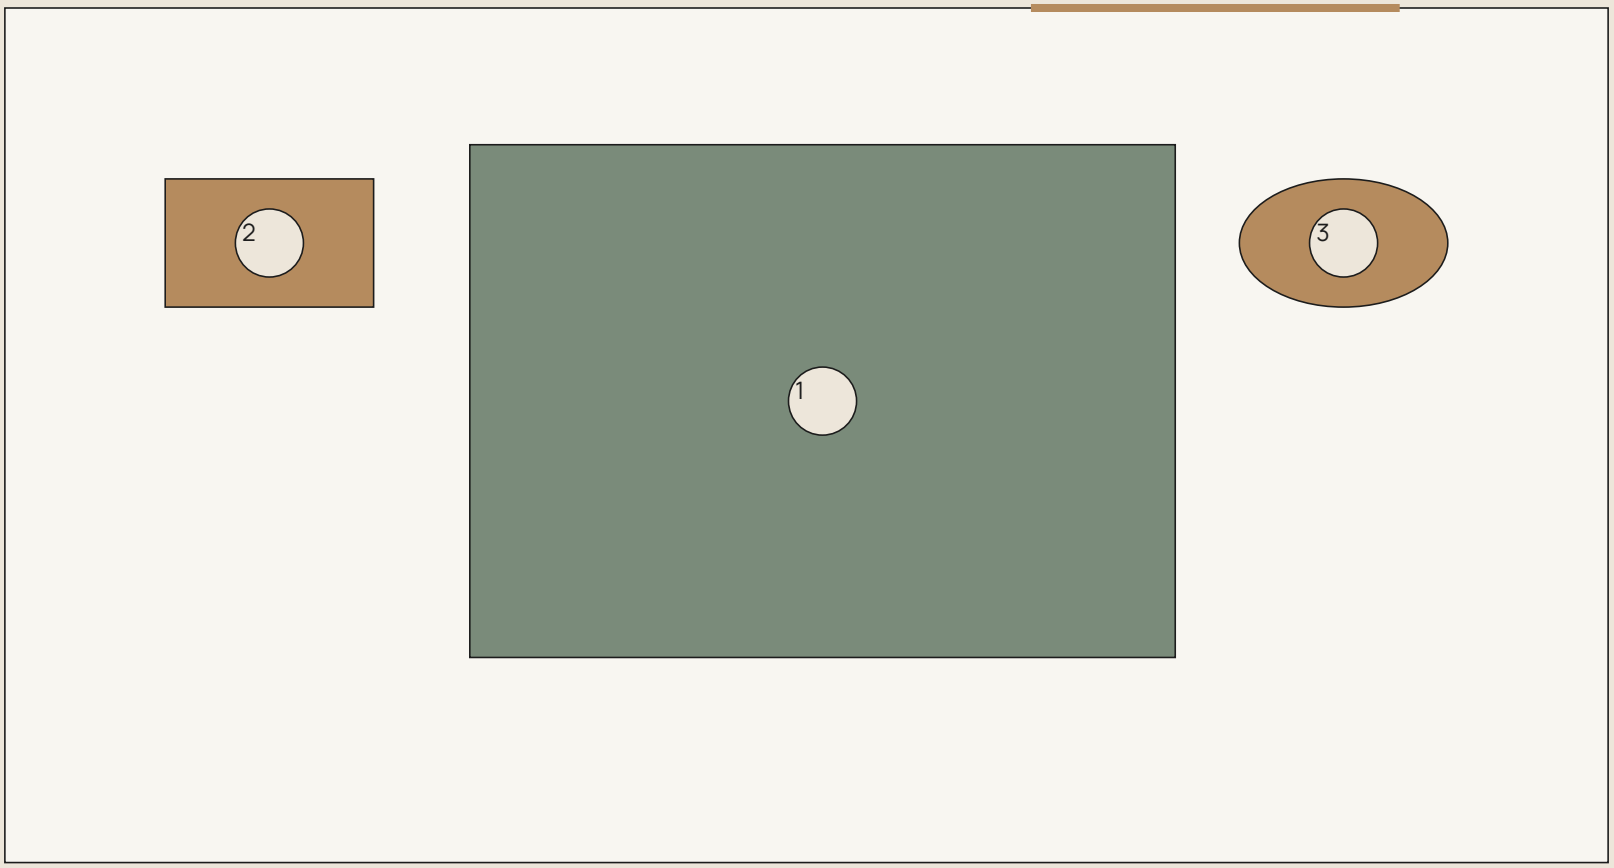

Plan for the chair in use, not just the table at rest.

Set out the table footprint and the chairs in their pulled-out position. Count the places you use every day before planning occasional guests. A generous table needs a generous route around it.

The console can hold serving pieces without turning the dining surface into storage. Check door swings and the route from the kitchen. Proposed seating counts are layout intentions; check the actual room and chair sizes.

Planning prompts, not an architectural survey. Verify room dimensions, access and actual furniture before purchasing.

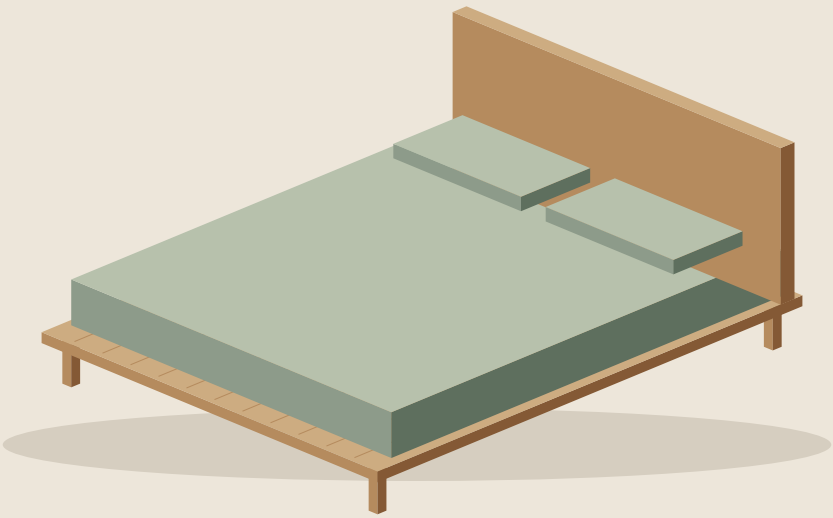

A quieter beginning and end.

Arrangement study / not to scale. Confirm clearances for your room.

A quieter evening.

One anchor. Two supporting pieces.

1 / H08 / Rest bed frame

2 / H09 / Edge bedside

3 / H12 / Pebble side table

Bedroom / atmosphere reference

Stock interior reference only. Photographed furniture is not presented as a Hearthwell SKU.

Reach, rest, repeat.

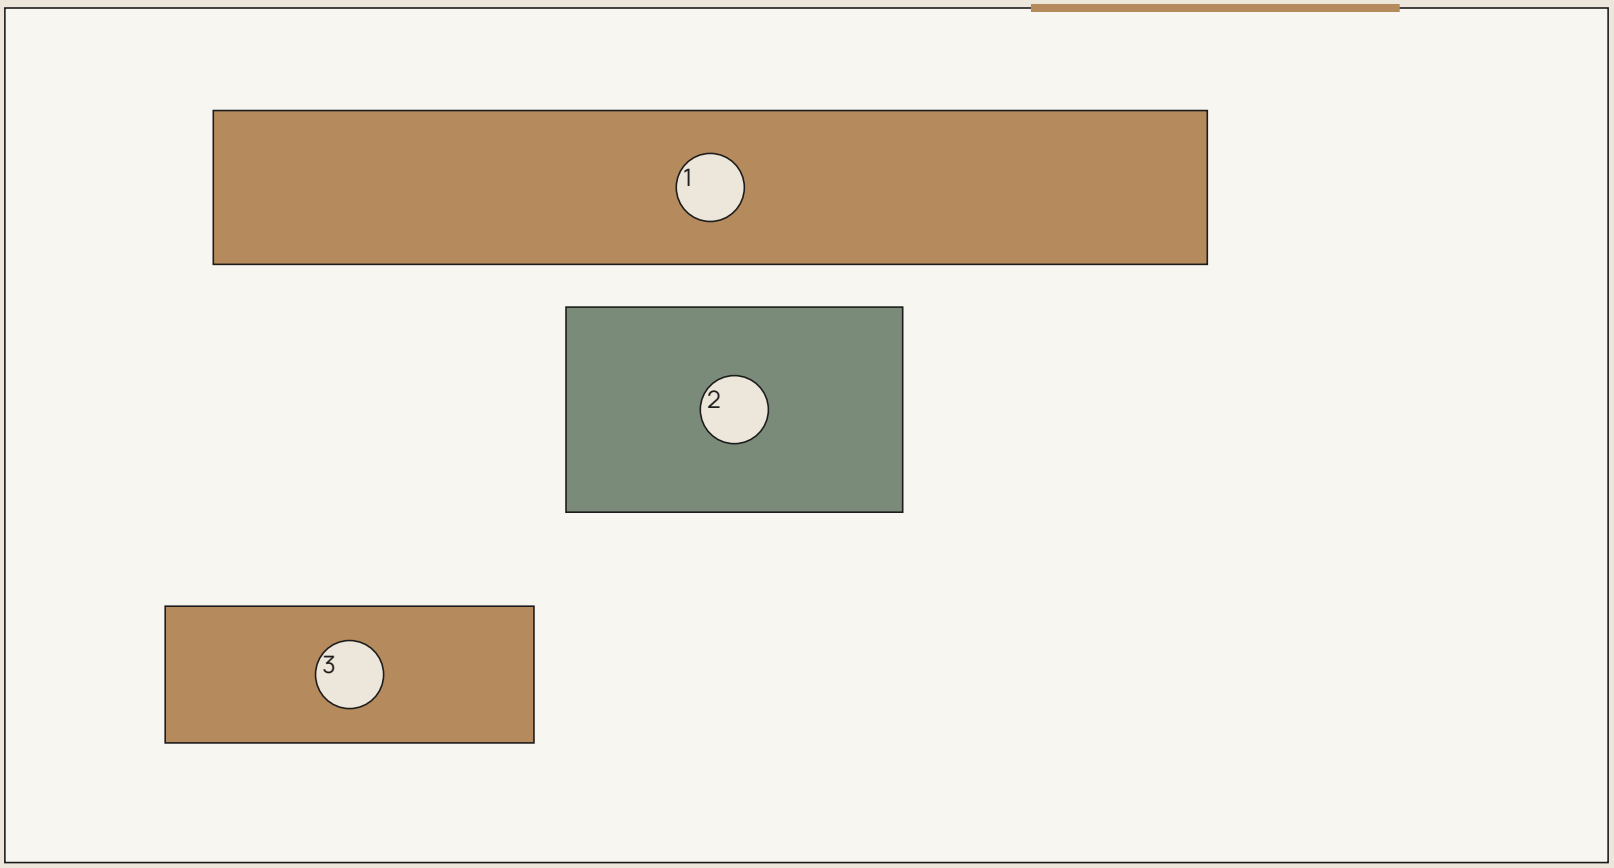

Keep the approach to the bed as clear as the view.

Check the mattress size first, then the overall frame. A bedside surface needs to be reachable without restricting the approach to the bed. Test the route in the dark as well as in daylight.

A light upholstery finish keeps the palette quiet, but the choice should follow how the room is used. Ask for a physical sample and inspect it in the room. Printed colour cannot predict every light condition.

Planning prompts, not an architectural survey. Verify room dimensions, access and actual furniture before purchasing.

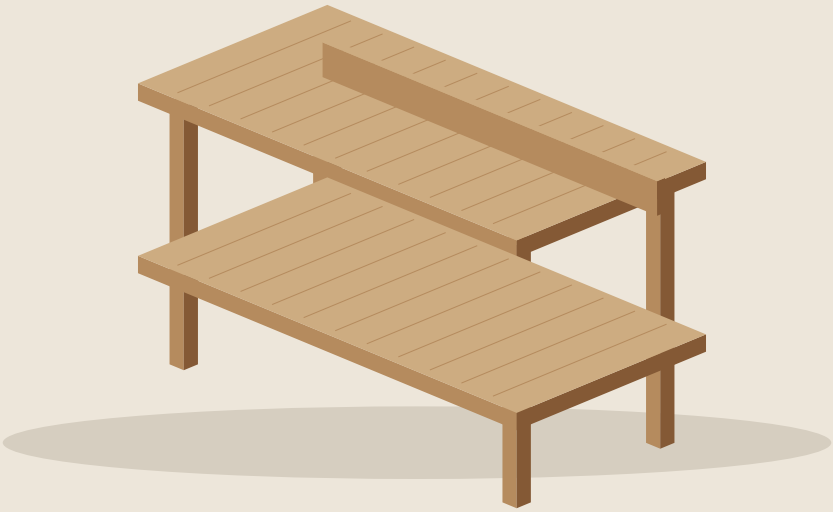

A compact place to focus.

Arrangement study / not to scale. Confirm clearances for your room.

Work within reach.

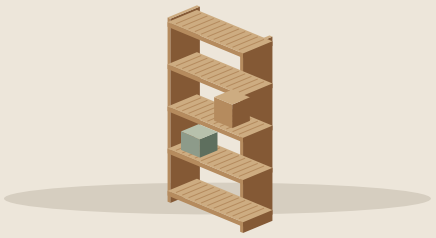

One anchor. Two supporting pieces.

1 / H06 / Nook writing desk

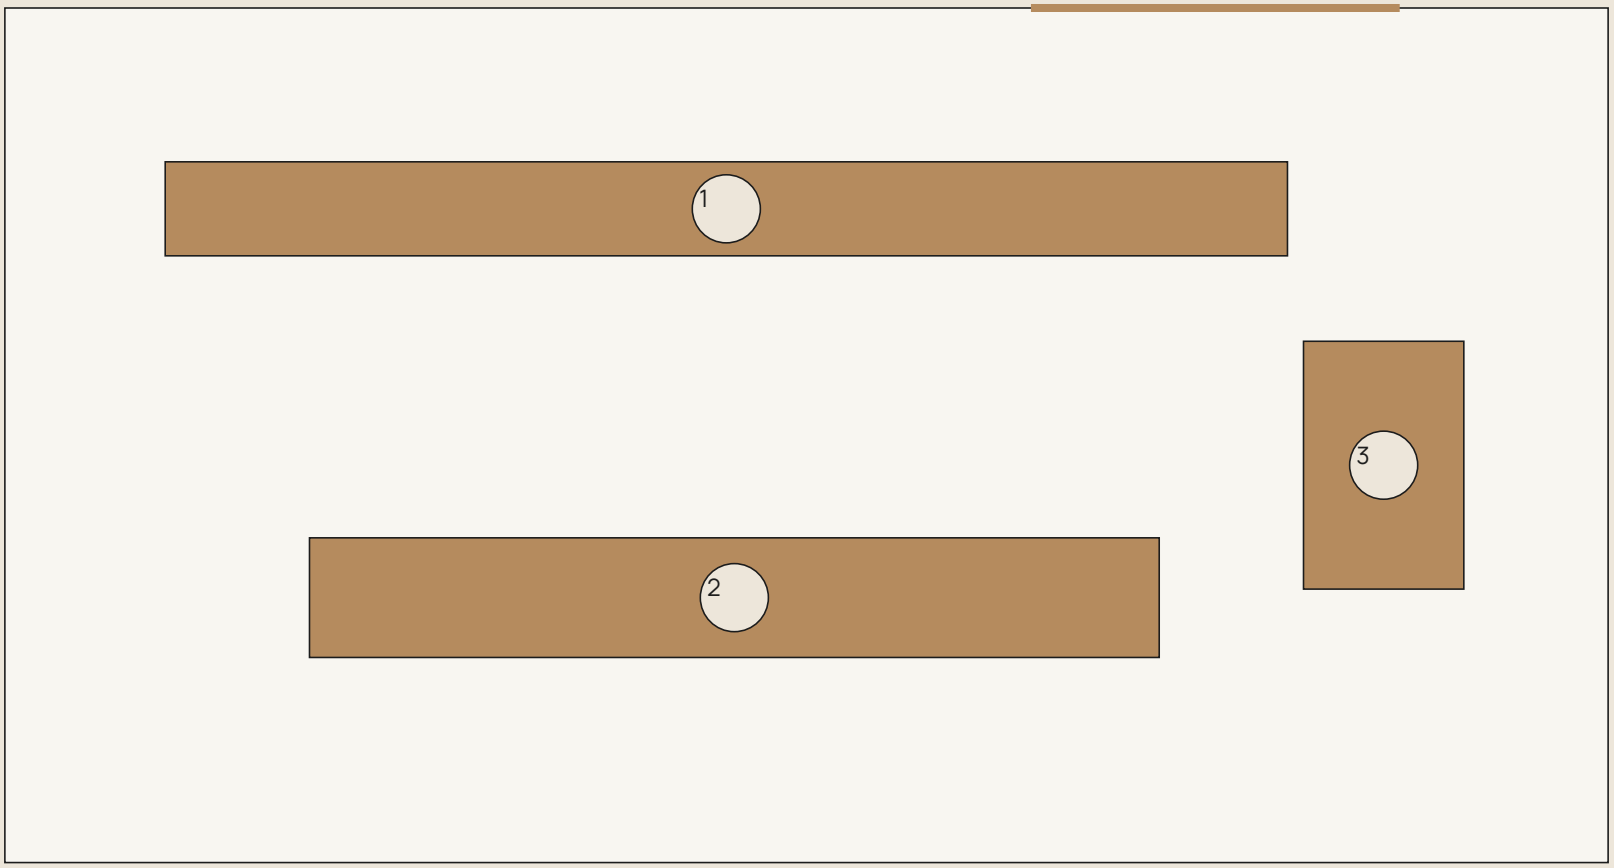

2 / H05 / Rail dining chair

3 / H07 / Step open shelf

A useful pause at the door.

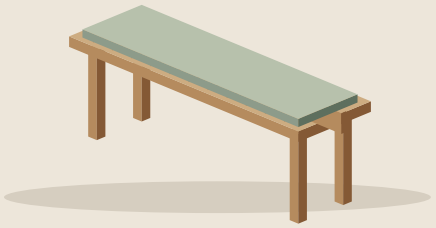

Arrangement study / not to scale. Confirm clearances for your room.

A useful threshold.

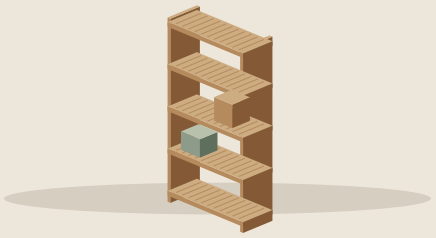

One anchor. Two supporting pieces.

1 / H11 / Fold console

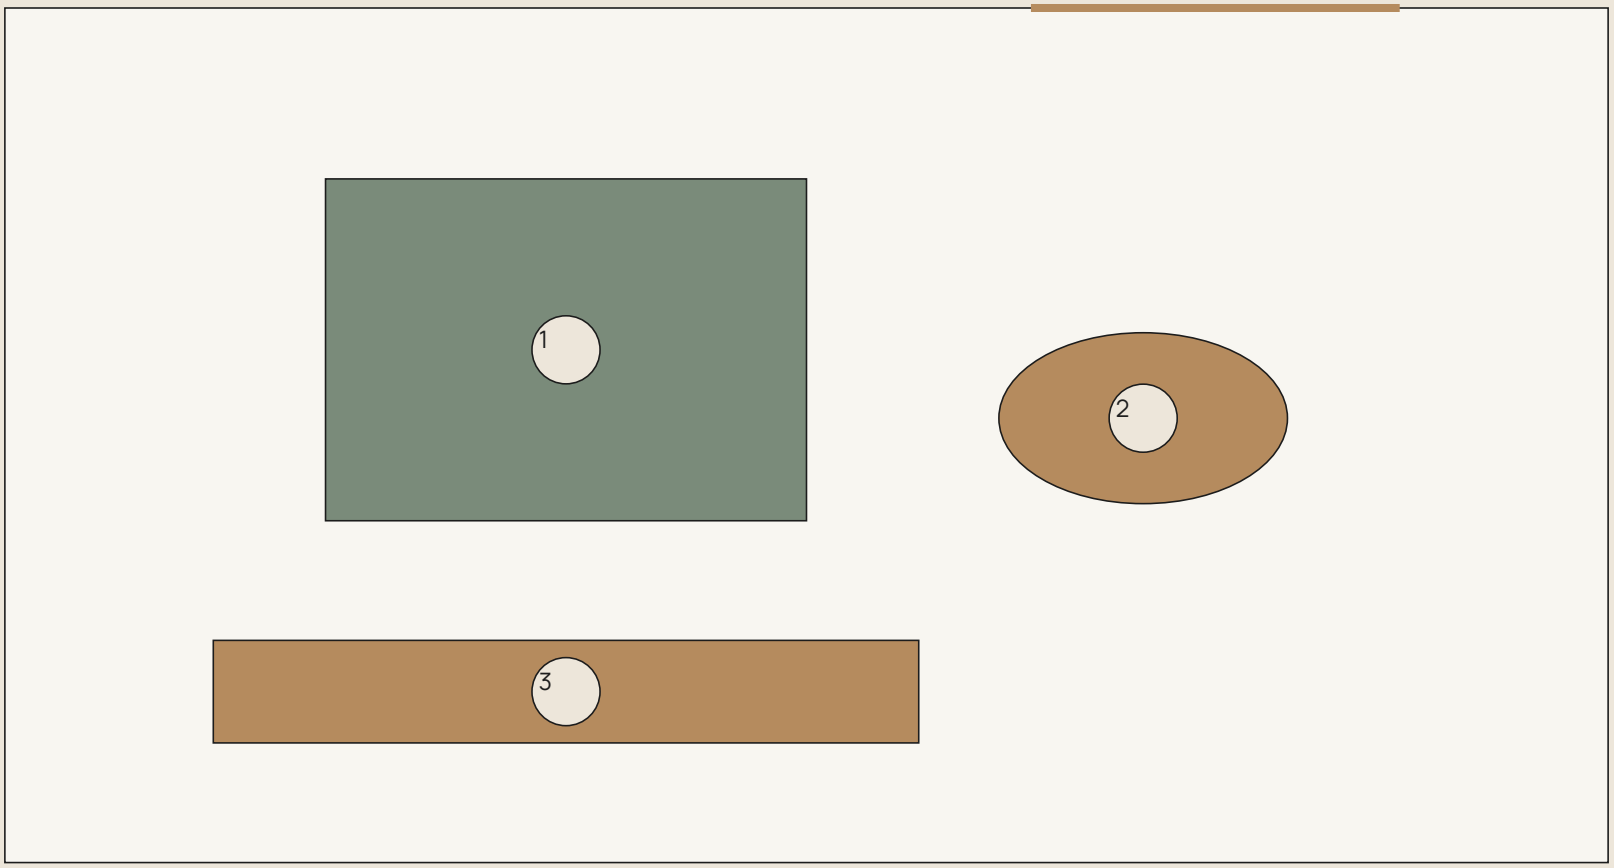

2 / H10 / Threshold bench

3 / H07 / Step open shelf

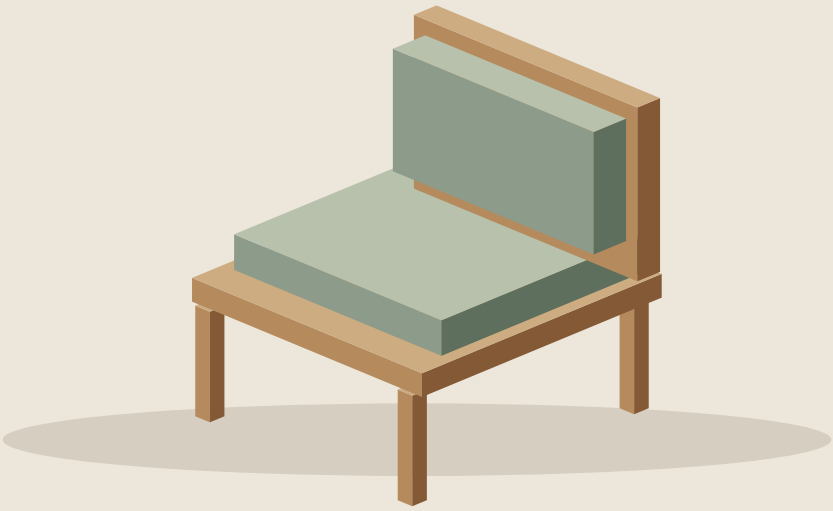

Make a corner your own.

Arrangement study / not to scale. Confirm clearances for your room.

Settle into a corner.

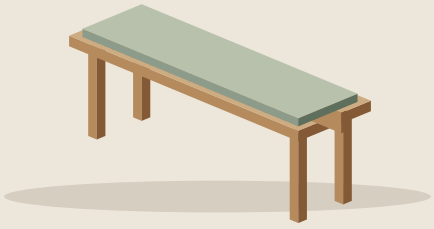

One anchor. Two supporting pieces.

1 / H02 / Arc lounge chair

2 / H12 / Pebble side table

3 / H10 / Threshold bench

The surface is part of the piece.

A proposed palette for the whole collection.

OAK-01 / Natural oak tone

LIN-01 / Pale upholstery

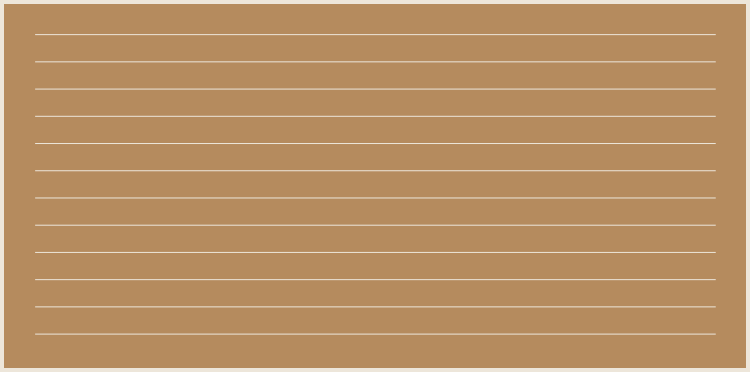

LIN-02 / Sage upholstery

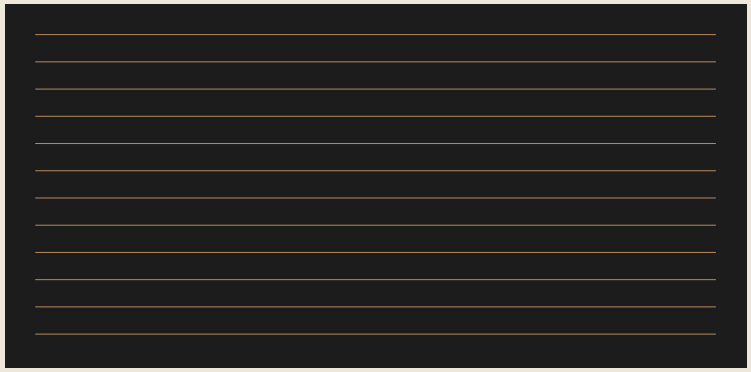

Native colour swatches. Intended timber and fabric appearance; no supplier sample or material certification is claimed.

Two tones.
One family.

OAK-01 natural / OAK-02 dark stain

OAK-01 / a warm natural-tone finish proposed across the principal pieces.

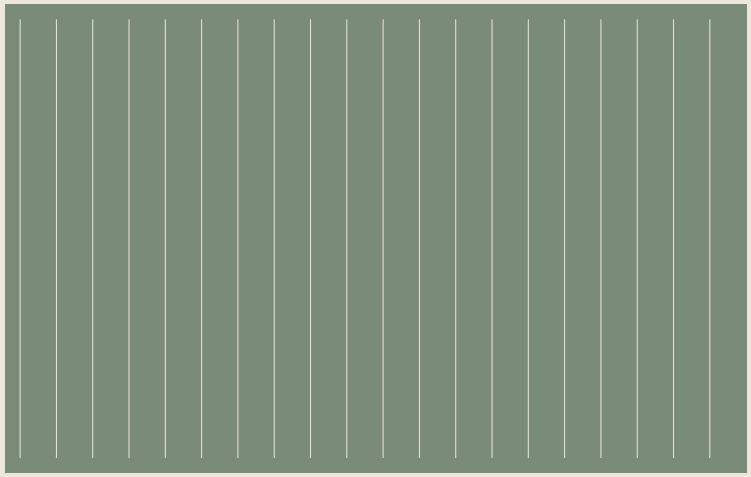

OAK-02 / a darker accent proposed for the Pebble side table.

Grain drawings are schematic. Timber varies naturally; order a physical sample before final specification.

Colour that sits quietly.

LIN-01 pale / LIN-02 sage

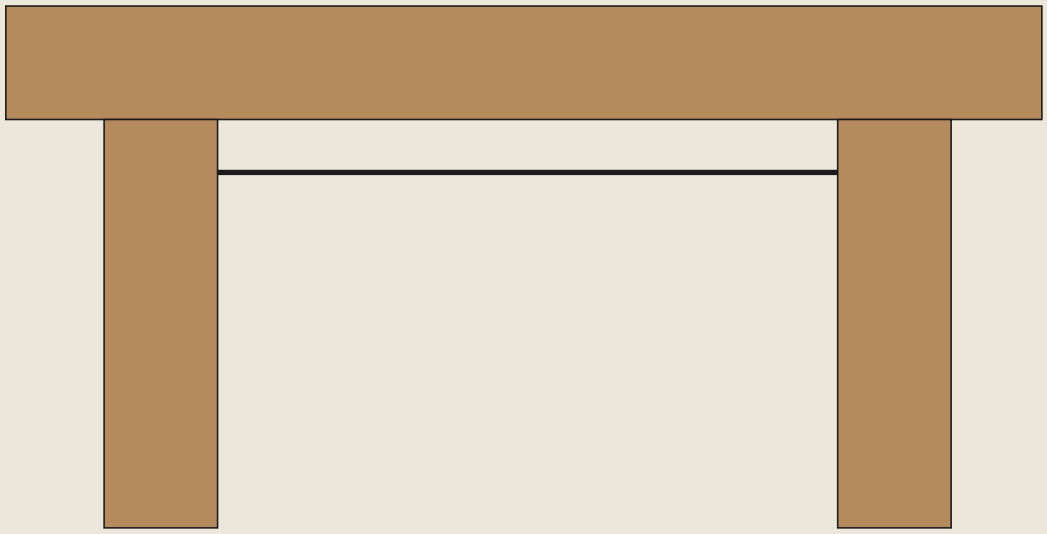

The LIN codes identify proposed colourways, not a certified fibre composition. Request composition, abrasion and cleaning information from the eventual supplier.

No performance, fire-resistance, sustainability or fabric-origin claims are made.

Show the joint.
Ask the right question.

A schematic timber connection, drawn natively.

Top / apron / leg. Connection geometry is illustrative and has not been engineered or load-tested.

A drawing is a conversation.

Confirm the specification before fabrication.

The product index fixes overall dimensions and the intended finish code. It does not establish a manufacturing tolerance, structural load, fastening schedule or compliance standard. Those details belong in a production specification developed with the fabricator.

Review the drawing alongside a material sample and a prototype.

Ask how the top is attached, whether upholstery can be replaced and which elements can be separated for maintenance. A repairable intention needs a practical method.

The collection makes no claim of tested durability, certified sourcing or commercial availability. The package retains the authored specification matrix.

Original design proposals / no factory, supplier, accreditation or client endorsement is implied.

Keep the finish in mind.

Follow the final supplier instructions for each material.

Timber

Use a soft dry cloth for routine dusting. Test any cleaner on a hidden area and follow the actual finish supplier guidance.

Upholstery

Confirm the fibre and cleaning code before using a liquid product. Printed colour codes do not establish a cleaning method.

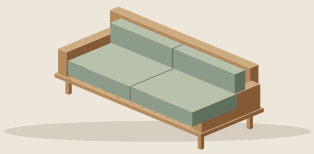

Movement

Lift furniture with suitable help. Check joints and feet after moving, and obtain qualified advice if a structural part loosens.

General care prompts for an authored collection. Final material-specific instructions remain a supplier responsibility.

Know the piece.

Overall dimensions in millimetres / W x D x H

H01 / Lowline sofa

2100 x 900 x 740 mm / OAK-01 / LIN-01

A low timber frame with two broad upholstered seat pads. Seat height 420 mm.

H02 / Arc lounge chair

760 x 820 x 780 mm / OAK-01 / LIN-02

A generous upholstered seat on a compact timber frame. Seat height 430 mm.

H03 / Round coffee table

800 x 800 x 340 mm / OAK-01

A circular top with four inset legs and a quiet, low profile.

Authored dimensions; drawings are not to scale. See material codes on pages 24-26 and fabrication limits on page 28.

Know the piece.

Overall dimensions in millimetres / W x D x H

H04 / Gather dining table

1800 x 900 x 740 mm / OAK-01

A rectangular six-place table with a simple apron and four legs.

H05 / Rail dining chair

480 x 520 x 790 mm / OAK-01 / LIN-01

An upholstered dining seat beneath a straight timber back rail. Seat height 450 mm.

H06 / Nook writing desk

1200 x 600 x 740 mm / OAK-01

A shallow desk with an under-top shelf for papers and small equipment.

Authored dimensions; drawings are not to scale. See material codes on pages 24-26 and fabrication limits on page 28.

Know the piece.

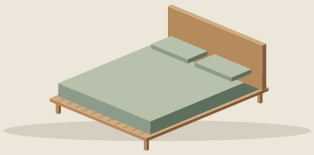

Overall dimensions in millimetres / W x D x H

H07 / Step open shelf

900 x 350 x 1800 mm / OAK-01

Four open tiers keep books and everyday objects within sight.

H08 / Rest bed frame

1700 x 2150 x 850 mm / OAK-01 / LIN-01

A low frame for a 1600 x 2000 mm mattress; mattress not included.

H09 / Edge bedside

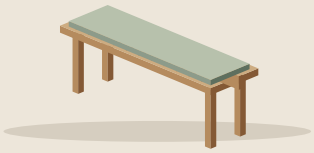

450 x 400 x 500 mm / OAK-01

A compact bedside surface with a low open shelf.

Authored dimensions; drawings are not to scale. See material codes on pages 24-26 and fabrication limits on page 28.

Know the piece.

Overall dimensions in millimetres / W x D x H

H10 / Threshold bench

1200 x 380 x 440 mm / OAK-01 / LIN-02

A slim upholstered bench for changing shoes or sitting briefly.

H11 / Fold console

1100 x 350 x 760 mm / OAK-01

A narrow console with a single open shelf below the top.

H12 / Pebble side table

420 x 420 x 460 mm / OAK-02

A round accent table in a darker stained timber finish.

Authored dimensions; drawings are not to scale. See material codes on pages 24-26 and fabrication limits on page 28.

Measure the route, not just the room.

A pre-order checklist for the eventual retailer.

Check the doorway, stair width, turns and lift dimensions against the packed product, not only its assembled size. Confirm whether assembly is required and which components can safely be removed.

Ask the retailer to confirm lead time, delivery service, access requirements and any installation charge before ordering.

Keep the agreed product code, finish, dimensions and quantity with the order. Inspect the delivery and record any damage promptly under the actual seller terms.

No live delivery offer, return period or commercial guarantee is established by this publication. Obtain the applicable written terms from the seller.

Planning information only. The collection has no operational checkout or customer-service channel.

See it.
Then specify it.

A space reserved for verified retail partners.

No stockists are currently listed. This independent collection is not offered for sale, and no retail partnership is claimed.
